

MODEL: FWP-9500 Floor Standing Cooler FWP-9200 Countertop Version

With an easy to open front panel door, accessing filters couldn't be easier. This model has plenty of space to house all desired filter combinations. This unit also features a hidden drip collector with a lever indicator, allowing the user to know when the drip tray needs to be emptied.

This unit features an eye catching display with controls for hot, cold, and room temperature water. The largely remodeled dispensing gap is also illuminated by a vibrant LED light, sure to enhance any users experience.

This model includes a built in cup holder and comes standard in an elegant black and gray color combination..
